Hohenstein Digital Fitting Lab.

3D design & visualization – bring collections to life faster and reduce the impact.

Hohenstein supports digitization by linking deep fit and pattern expertise with 3D & 4D TECHNOLOGIES.

The keys to your digital revolution.

Use our modular services to supplement or create your 3D workflow.

1
Knowledge about sizes and measurements

2
Pattern expertise for a solid fit simulation

3
Individual Avatars for designing across sizes and target group

4
Realistic material simulation

5
3D visualisation for the digital productcommunication in TechPacks, webshops and for marketing

6
3D fitting with digital prototyping

7
Fit in motion – both real in the 4D scanner and virtual in the simulation

8
Training with consulting services, Workshops and Hohenstein Academy
